Mastering The Science Of Integrative Blood Chemistry

A 2-Day Blood Chemistry Analysis Seminar

Mastering The Science Of Integrative Blood Chemistry

A 2-Day Blood Chemistry Analysis Seminar

All Attendees Will Receive

- Blood Assessment Computer Program
- 200 Page Blood Chemistry Manual
- Quick Reference Guide
- Notes On Toxic Element Exposure

BLOOMINGTON SEMINAR

JUNE 7th & 8th

Confidence

Have greater confidence in your patient diagnosis

Tough Cases

Get better results with tough cases by identifying metabolic imbalances

Referrals

Increase referrals from patients, and from other clinicians

How To Use Blood Chemistry Analysis To Dramatically Improve Your Clinical Outcomes

Created by Harry O. Eidenier Jr.

Taught by Dr. Abbas Qutab

THIS NEW SEMINAR WILL UNDOUBTEDLY BECOME THE INDUSTRY'S GOLD STANDARD

Mastering The Science Of Integrative Blood Chemistry

A 2-Day Blood Chemistry Analysis Seminar

Created through the collaboration of Harry O. Eidenier Jr., the father of Functional/Integrative Blood Chemistry, and Dr. Abbas Qutab, one of the top nutritional clinicians in the world.

Attendees Will Receive A Blood Assessment Computer Program Designed By Harry O. Eidenier Jr.

This two-day seminar will allow practitioners to master, implement, and offer Integrative Blood Chemistry Analysis immediately in their practice. Mastering the science of Integrative Blood Chemistry along with a detailed medical history and physical exam will teach you how to:

- Pinpoint underlying blood chemistry imbalances that are implicated in chronic health conditions and how to apply targeted nutritional supplementation to balance blood chemistries.
- Identify hormonal, metabolic, and gastrointestinal contributors to their patients' health with scientific accuracy.
- Dramatically improve your clinical outcomes and amaze your patients with your diagnostic skills
- Answer with authority the question - "I feel terrible but my Primary Care Physician says that all my tests are normal"
- Get results on those hard-to-treat cases which other practitioners can't help
- Understand how to identify pathology and when to refer the patient for further testing or offer more integrative care
- How to grow and increase profitability of the practice by becoming an authority in Integrative Health Care.

CE Credits Applied For: DC, LAc, DOM, LDN, RD, RN

Date: June 7th & 8th

Times: 8:30 - 5:30 / 8:30-12:30

Cost: \$325 Students \$295

After June 1st \$395 Students \$325

Seminar location

Courtyard Marriott

7800 Bloomington Ave. S., Bloomington

952-876-0100

Confidence

Have greater confidence in your patient diagnosis

Tough Cases

Get better results with tough cases by identifying metabolic imbalances

Referrals

WHAT IS INTEGRATED BLOOD CHEMISTRY ANALYSIS

Integrative Blood Chemistry Analysis (IBCA) is an extremely effective tool used to evaluate comprehensively the status of patients' health. IBCA when utilized in a clinical practice can provide the doctor insight into the functions and imbalances of nearly all the major systems of the body such as:

- Gastrointestinal and digestive health
- Acid/base balance
- Blood sugar regulation
- Thyroid health
- Immune system health
- Toxicity and inflammation
- Nutritional deficiencies

Dr. Abbas Qutab

Dr. Abbas Qutab is the founder of the Élan Vital Medical Centers and Spas, located in Boston and Worcester, Massachusetts, USA. Since they first opened in 1989, these clinics and spas have been the choice for many thousands of people seeking healthy aging and functional medicine treatments. Dr. Qutab has a PhD in Ayurvedic Medicine and also holds degrees in Medicine, Oriental Medicine and Chiropractic. He is one of the very few physicians in the U.S. who has been awarded an honorary ScD from the United Nations University, and has been designated "Physician of the Year" by the NRCC. Dr. Qutab travels extensively and has taught thousands of physicians in the U.S. and Europe how to implement complementary medicine into their practices. He is a sought-after speaker for conferences and health expositions. His speaking engagements include the World Health Organization Congress on Complementary Medicine, and lectures at numerous hospitals, including the Dana-Farber Cancer Institute and Massachusetts General Hospital
