Blood Chemistry SEMINAR

Mastering The Science Of
Integrative Blood Chemistry

A 2-Day Blood Chemistry Analysis Seminar

Mastering The Science Of Integrative Blood Chemistry

A 2-Day Blood Chemistry Analysis Seminar

All Attendees Will Receive

- Blood Assessment Computer Program
- 200 Page Blood Chemistry Manual
- Quick Reference Guide
- Notes On Toxic Element Exposure

Scottsdale, AZ

January 11th & 12th

Reno, NV

February 22nd & 23rd

Albuquerque, NM

March 22nd & 23rd

Confidence

Have greater confidence in your patient diagnosis

Tough Cases

Get better results with tough cases by identifying metabolic imbalances

Referrals

Increase referrals from patients, and from other clinicians

**How To Use Blood Chemistry Analysis
To Dramatically Improve Your Clinical Outcomes**

Created by Harry O. Eidenier Jr. ~ Taught by Dr. Abbas Qutab

To Register 800-232-3183 or dsdinternational@dshint.com

THIS NEW SEMINAR WILL UNDOUBTEDLY BECOME THE INDUSTRY'S GOLD STANDARD

Mastering The Science Of Integrative Blood Chemistry

A 2-Day Blood Chemistry Analysis Seminar

Created through the collaboration of Harry O. Eidenier Jr., the father of Functional/Integrative Blood Chemistry, and Dr. Abbas Qutab, one of the top nutritional clinicians in the world.

Attendees Will Receive A Blood Assessment Computer Program

This two-day seminar will allow practitioners to master, implement, and offer Integrative Blood Chemistry Analysis immediately in their practice. Mastering the science of Integrative Blood Chemistry along with a detailed medical history and physical exam will teach you how to:

- Pinpoint underlying blood chemistry imbalances that are implicated in chronic health conditions and how to apply targeted nutritional supplementation to balance blood chemistries.
- Identify hormonal, metabolic, and gastrointestinal contributors to their patients' health with scientific accuracy.
- Dramatically improve your clinical outcomes and amaze your patients with your diagnostic skills
- Answer with authority the question - "I feel terrible but my Primary Care Physician says that all my tests are normal"
- Get results on those hard-to-treat cases which other practitioners can't help
- Understand how to identify pathology and when to refer the patient for further testing or offer more integrative care
- How to grow and increase profitability of the practice by becoming an authority in Integrative Health Care.

DC CE Credits Applied For

NCCAOM approved 11 CEU's ~ AZ NMD approved 11 CEU's

Times: 8:30 - 5:30 / 8:30-12:30

Early Bird Registration 15 days prior to seminar

Cost: \$325 Students \$250 Otherwise \$395 Students \$325

WHAT IS INTEGRATED BLOOD CHEMISTRY ANALYSIS

Integrative Blood Chemistry Analysis (IBCA) is an extremely effective tool used to evaluate comprehensively the status of patients' health. IBCA when utilized in a clinical practice can provide the doctor insight into the functions and imbalances of nearly all the major systems of the body such as:

- Gastrointestinal and digestive health
- Acid/base balance
- Blood sugar regulation
- Thyroid health
- Immune system health
- Toxicity and inflammation
- Nutritional deficiencies

This Is A Complete Course, Nothing Additional To Purchase Like Emailed Reports

Dr. Abbas Qutab

Dr. Abbas Qutab, founder of Elan Vital Medical Centers and Spas located in Boston, MA. holds degrees in: Medicine, Oriental Medicine, Chiropractic and has a Ph.D. in Ayurvedic Medicine. Dr. Qutab, has taught thousands of physicians in Europe and in the U.S. on how to integrate alternative medicine into their practices. His speaking engagements include the World Health Organization Congress on Complementary Medicine. In 2003 he received the "Physician of the Year" award from the NRCC of the National Healthcare and Medicare Reforms Committee.
