

Biotics Research Corporation Product Showcase

ProMulti-Plus™

The ultimate in high potency multiple vitamin/mineral supplementation with key phytonutrient support.

For Healthcare Professionals Only

- Physiological levels of important micronutrients
- Active forms of vitamins for functional effectiveness
- Stable, effective phytonutrient support
- Low-level piperine (from black pepper) for increased absorption and response

180 gelatin-free vegetarian capsules – A full 30 day supply !

Vitamin A is supplied as natural mixed carotenoids and palmitate in a 2:1 ratio. While carotenoids are important antioxidants with additional functions, only about 10% serve as vitamin A precursors. As vitamin A is necessary for proper immune function, vision, cell growth and differentiation among other biological activities, inclusion of a safe yet functional level of vitamin A (as palmitate) is prudent.

Vitamin D₃ (cholecalciferol), the biologically active form of vitamin D, is supplied at a physiological dose of 2,000 IU. Vitamin D deficiency is well-documented to be widespread in the general population and is seen in 90% or more of those with chronic musculoskeletal pain.

Vitamin E is supplied as naturally derived d-alpha tocopheryl succinate and mixed tocopherols, providing 400 IU of vitamin E activity.

Vitamin K₁ (the form found in plants) is provided at 1,000 mcg, an amount recent research suggests is necessary to optimize carboxylation of osteocalcin, a key calcium-binding protein in bone.

Vitamins B₁, B₂ and B₆ are supplied as the active, phosphorylated forms, combined with the more common thiamin, riboflavin and pyridoxine forms, to ensure efficacy across the wide array of population groups. A judicious amount of niacin or nicotinate (150 mg) is supplied as niacinamide and inositol hexaniacinate, allowing for significant availability without the flushing or the potential for toxicity sometimes associated with high-dose niacin.

ProMulti-Plus™

The ultimate in high potency multiple vitamin/mineral supplementation with key phytonutrient support.

B5 or pantothenic acid (as calcium pantothenate) is provided at a significant 200 mg amount. B5 is vital in the formation of coenzyme A, and is important in healthy adrenal function.

Folic acid and **B12 (as hydroxycobalamin)** are supplied at 1,000 mcg each.

Biotin (supplied at a significant 800 mcg) is necessary for fatty acid metabolism and mitochondrial function.

Calcium and **magnesium** are provided at 400 mg and 200 mg respectively, a 2:1 ratio.

Chromium (as picolinate) at 200 mcg is sufficient for all except special needs patients.

Selenium is provided as selenomethionine and sodium selenite for their antioxidant and immunosupportive properties.

Other important minerals include **zinc, copper, manganese, vanadium, boron, molybdenum,** and **iodine** in forms and amounts known to supply effective nutritive support.

ProMulti-Plus™ also supplies key phytonutrient support in the forms of **green tea extract, citrus bioflavonoids** and **quercetin**, all of which offer effective, stable antioxidant capacity from botanical sources.

Supplement Facts

Serving Size: 6 Capsules			Servings Per Container: 30		
	Amount Per Serving	%Daily Value		Amount Per Serving	%Daily Value
Vitamin A (as mixed carotenoids, palmitate - 2:1 ratio)	7,500 IU	150%	Iodine (as potassium iodide)	200 mcg	133%
Vitamin C (ascorbic acid)	500 mg	833%	Magnesium (as magnesium citrate, oxide)	200 mg	50%
Vitamin D (D ₃ as cholecalciferol)	2,000 IU	500%	Zinc (as zinc citrate)	20 mg	133%
Vitamin E (as α -tocopherol succinate, mixed tocopherols)	400 IU	1,333%	Selenium (as selenomethionine, sodium selenite)	200 mcg	285%
Vitamin K (K ₁ as phytonadione)	1,000 mcg	1,250%	Copper (as copper citrate)	1.3 mg	65%
Thiamin (B ₁) (as thiamin mononitrate, cocarboxylase)	50 mg	333%	Manganese (as manganese citrate)	5 mg	250%
Riboflavin (B ₂) (as riboflavin, riboflavin-5-phosphate)	50 mg	2,941%	Chromium (as chromium picolinate)	200 mcg	167%
Niacin (as niacinamide, inositol hexaniacinate)	150 mg	750%	Molybdenum (as molybdenum glycinate)	100 mcg	133%
Vitamin B ₆ (as pyridoxal-5-phosphate, pyridoxine hydrochloride)	50 mg	2,500%	Boron (as calcium borogluconate)	1.5 mg	*
Folic Acid	1,000 mcg	250%	Vanadium (as vanadyl sulphate)	25 mcg	*
Vitamin B ₁₂ (as hydroxycobalamin)	1,000 mcg	16,667%	Quercetin	50 mg	*
Biotin	800 mcg	267%	Green tea extract	25 mg	*
Pantothenic acid (as calcium pantothenate)	200 mg	2,000%	Citrus bioflavonoids	20 mg	*
Calcium (as calcium citrate)	400 mg	40%	BioPerine® (from Piper nigrum)	1 mg	*

Other Ingredients: Vegetarian capsule shell

BIOPERINE®
BioPerine® is a registered trademark of Sabinsa Corporation.

Recommendation: Six (6) capsules of **ProMulti-Plus™** each day as a dietary supplement.

Caution: Patients taking warfarin, with vitamin D sensitivity or taking thiazide diuretics, and pregnant and lactating women should avoid taking this product unless it is specifically recommended and monitored by their physician as interactions may occur.

Contains: 180 Capsules
Product #: 1170
NDC: 55146-01170
