

WPB - 08/13

Weekly Practice Builder

Biotics Research Corporation • 6801 Biotics Research Drive • Rosenberg TX 77471
(800) 231 - 5777 • Email: biotics@bioticsresearch.com

In response to increasing demand from our Practitioners, Biotics Research has implemented a new e-mail program to bring important, leading-edge information and literature to you, thereby helping facilitate the growth of your practice. Biotics Research products are available exclusively through Healthcare Providers.

Our featured supplement of the week is **VasculoSirt™**

Why do your patients need VasculoSirt™? Vascular aging is characterized by progressive arterial stiffness, loss of arterial elasticity and arterial compliance from a myriad of structural and functional changes in the endothelium, vascular media and adventitia. **VasculoSirt™**'s revolutionary nutritional formula is designed to:

- Slow vascular aging
- Promote vascular and heart health
- Slow aging in experimental animals
- Provide healthy support for blood pressure, cholesterol, glucose and insulin levels within normal ranges
- Supports sirtuin activity

Why choose VasculoSirt™ from Biotics Research Corporation? Quite simply, you can not get **VasculoSirt™** anywhere else. Dr. Mark Houston, Associate Clinical Professor of Medicine at Vanderbilt Medical School and Director of Hypertension Institute and Vascular Biology in Nashville, in conjunction with Biotics Research Corporation, has developed **VasculoSirt™**, a state of the art product, providing comprehensive support for healthy cardiovascular function and healthy aging. In keeping with Biotics Research Corp.'s dedication to providing superior leading-edge supplements each serving of **VasculoSirt™** supplies 50 mg of Resveratrol (Trans-Resveratrol), 50 mg of R-Alpha Lipoic Acid (R-ALA), 250 mg of EGCG (Epigallocatechin Gallate), 50 mcg of vitamin K (K2 and K1), 100 mg of Coenzyme Q10 (CoQ10), 500 mg of Acetyl-L-Carnitine, 4,000 IU of vitamin D3, 250 mg of vitamin C, 125 mg of Magnesium, 50 mg of Olive leaf extract, 50 mg of Quercetin, and supportive amounts of **Phytolens®**, Ginko biloba extract, Lutein, Lycopene, and a complement of B-Complex vitamins. Each bottle of **VasculoSirt™** takes the place of up to 12 separate supplements, providing distinct cost and convenience advantages for your patients. As always, you can count on Biotics Research Corporation to offer superior nutritional products supplying "The Best of Science and Nature".

Studies You Should Know About

High folic acid intake associated with healthier sperm. While the role of folic acid supplementation in women has long been recognized for preventing fetal developmental anomalies. A new study has found a significant correlation between high folic acid intake and decreased level of DNA/chromosomal abnormalities in men has brought newfound attention to the importance of paternal dietary factors.

S S Young, B Eskenazi, FM Marchetti, G Block, and AJ Wyrobek The association of folate, zinc and antioxidant intake with sperm aneuploidy in healthy non-smoking men. *Journal of Human Reproduction* (advance access) Doi:10.1093/humrep/den036.
