

Physician Monitored

Turnkey Weight Loss Program

Patients eat more.. exercise less.. & lose weight

Add This

Weight Loss Profit Center To Your Practice

Biotics Research has developed an extremely effective weight loss program for wellness practitioners. This food/supplement based turnkey program has men losing an average of 8-12 lbs. per month and women losing an average of 4-6 lbs. per month. Although this program is physician monitored, the patient education materials are so easy to follow your patients will need almost no support. New statistics show that 72.9% percent of your patients are overweight and good candidates for this program. Use this program with existing patients and to generate new patients thru referrals or community advertising.

72.9% of your current patients are overweight
